Academic Program and Course Description Guide

2025

Introduction:

The educational program is a well-planned set of courses that include procedures and experiences arranged in the form of an academic syllabus. Its main goal is to improve and build graduates' skills so they are ready for the job market. The program is reviewed and evaluated every year through internal or external audit procedures and programs like the External Examiner Program.

The academic program description is a short summary of the main features of the program and its courses. It shows what skills students are working to develop based on the program's goals. This description is very important because it is the main part of getting the program accredited, and it is written by the teaching staff together under the supervision of scientific committees in the scientific departments.

This guide, in its second version, includes a description of the academic program after updating the subjects and paragraphs of the previous guide in light of the updates and developments of the educational system in Iraq, which included the description of the academic program in its traditional form (annual, quarterly), as well as the adoption of the academic program description circulated according to the letter of the Department of Studies T 3/2906 on 3/5/2023 regarding the programs that adopt the Bologna Process as the basis for their work.

In this regard, we can only emphasize the importance of writing an academic programs and course description to ensure the proper functioning of the educational process.

Concepts and terminology:

Academic Program Description: The academic program description provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

Course Description: Provides a brief summary of the most important characteristics of the course and the learning outcomes expected of the students to achieve, proving whether they have made the most of the available learning opportunities. It is derived from the program description.

Program Vision: An ambitious picture for the future of the academic program to be sophisticated, inspiring, stimulating, realistic and applicable.

Program Mission: Briefly outlines the objectives and activities necessary to achieve them and defines the program's development paths and directions.

Program Objectives: They are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

Curriculum Structure: All courses / subjects included in the academic program according to the approved learning system (quarterly, annual, Bologna Process) whether it is a requirement (ministry, university, college and scientific department) with the number of credit hours.

Learning Outcomes: A compatible set of knowledge, skills and values acquired by students after the successful completion of the academic program and must determine the learning outcomes of each course in a way that achieves the objectives of the program.

Teaching and learning strategies: They are the strategies used by the faculty members to develop students' teaching and learning, and they are plans that are followed to reach the learning goals. They describe all classroom and extra-curricular activities to achieve the learning outcomes of the program.

1. Program Vision

Program vision is written here as stated in the university's catalogue and website.

2. Program Mission

Program mission is written here as stated in the university's catalogue and website.

3. Program Objectives

General statements describing what the program or institution intends to achieve.

4. Program Accreditation

Does the program have program accreditation? And from which agency?

5. Other external influences

Is there a sponsor for the program?

6. Program Structure

Professional Development

Mentoring new faculty members

Briefly describes the process used to mentor new, visiting, full-time, and part-time faculty at the institution and department level.

Professional development of faculty members

Briefly describe the academic and professional development plan and arrangements for faculty such as teaching and learning strategies, assessment of learning outcomes, professional development, etc.

12. Acceptance Criterion

(Setting regulations related to enrollment in the college or institute, whether central admission or others)

13. The most important sources of information about the program

State briefly the sources of information about the program.

Course Description Form

1. Course Name:	
Analytical Mechanics	
2. Course Code:	
WBM-42-04	
3. Semester / Year:	
Semester	
4. Description Preparation Date:	
19/3/2025	
5. Available Attendance Forms:	
Presence in the classroom	
6. Number of Credit Hours (Total) / Number of Units (Total)	
30 h/ 2 units	
7. Course administrator's name (mention all, if more than one name)	
Name: Hussain Ameer Aljawad Email: Hussein.aljawad@uowa.edu.iq	
8. Course Objectives	
Course Objectives	The course will cover fundamental concepts on the vibrations of mechanical systems including, simple harmonic motion, free and forced of undamped and damped vibrations, rotating unbalance, support motion, vibration measuring instruments, two and multi degrees of freedom.
9. Teaching and Learning Strategies	
Strategy	<ol style="list-style-type: none"> 1. Model real and physical dynamic systems in terms of mathematical models. 2. Apply principles of mechanical vibrations such as Newton's second law, and the principle of conservation of energy to the mathematical models to obtain their governing equations of motion. 3. Solve the obtained equations of motion to understand behavior of oscillatory systems to various excitations such as harmonic excitation, and impulse excitation.

10. Course Structure

Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method
1+2	2	Introduction to vibrations	Introduction to vibrations, Simple harmonic motion	Presented the lectures and explain it.	Daily exams + classwork
3-5	2	Free undamped vibrations	mathematical models, conservation of energy to the mathematical models	Presented the lectures and explain it.	Daily exams + classwork
6-8	2	Free damped vibrations	Solve the obtained equations of motion to understand behavior of oscillatory systems	Presented the lectures and explain it.	Daily exams + classwork
9	2	Force of undamped vibrations	Solve the obtained equations of motion with force to understand behavior of oscillatory systems	Presented the lectures and explain it.	Daily exams + classwork
10-12	2	Force of damped vibrations,	Force of damped vibrations, Vibration isolation and Force transmissibility, Rotating unbalance vibration, vibration measuring instruments	Presented the lectures and explain it.	Daily exams + classwork
13-15	2	Multi-degrees of freedom system	Two-degrees of freedom systems, Multi-degrees of freedom system	Presented the lectures and explain it.	Daily exams + classwork

11. Course Evaluation

- 1- Theoretical lectures.
- 2- Discussion Tutorials.
- 3- Application in group to activate the team spirit at work

12. Learning and Teaching Resources

Required textbooks (curricular books, if any)	Text book of Mechanical vibrations (2nd Ed) V. D. Rao.
Main references (sources)	Theory of vibration with applications (5-Ed), William T. Thomson
Recommended books and references (scientific journals, reports...)	
Electronic References, Websites
