UNIVERSITY OF WARITH ALANBYIAA COLLEGE OF ADMINISTRATION AND ECONOMICS		University of the Heirs of the Prophets College of Management and Economics
DEPARTMENT of Economics Oil and Gas		<u>Oil and Gas Department of Economics</u>
<u>Bachelor's degree (B.Sc.) - Economics Oil and Gas</u>	<u>2024/2025</u>	<u>- Bachelor of Science Oil and Gas Economics</u>
<u>Curriculum Guide</u>		
<u>1-MISSION&VISION</u>		<u>First: Mission and Vision</u>
<p>The department seeks to achieve a distinguished and prestigious position in the field of oil sector management at the local and international levels, through the scientific research, achieving continuous competition in providing development of scientific and educational services, striving for leadership in order to achieve excellence according to international standards, and developing a model of the oil sector educational process that is compatible with the global requirements of the oil sector.</p> <p>This department aims to be a pioneer in the field of petroleum industry economics, integrated with other sectors and sciences, and to achieve international research process, employing modern technological means, and quality in the educational and research participating in meeting the requirements of the labor market according to national and international standards.</p>		

international scientific standards. The department also seeks to provide social services and students with diverse skills, especially in the field of petroleum by graduating qualified economics and industries, and providing petroleum institutions with scientifically, administratively and technically qualified personnel, in addition to developing their research staff teaching and research.

2-PROGRAM SPECIFICATION

Second: Program specifications

It is one of the departments specializing in the economic, accounting, and administrative fields of the oil sector, and aims to graduate students with diverse skills, particularly in the oil sector in the

3-PROGRAM GOALS

Third: Program objectives

1. Focusing on intellectual and scientific development through openness to the experiences of colleges in various universities
2. Developing administrative skills and capabilities in the college and department through preparing and participating in programs
3. Preparing scientific cadres with the ability to develop, innovate and serve the community
4. Developing educational curricula to keep pace with modern developments in the scientific disciplines taught by the college
5. Using advanced educational methods, expanding scientific research, studies, analytical and applied research projects, and holding scientific conferences, seminars, and periodic discussion groups that address the most important issues and the problems facing the country
6. Supporting and serving the community by providing economic and administrative consulting and studies, as well as training and qualification programs to various

.stitutionsgovernment agencies and public and private in

.7

4-STUDENT LEARNING OUTCOMES

Fourth: Learning outcomes

OUTCOMES 1: IDENTIFICATION OF COMPLEX Graduates of the Department of Oil and Gas Economics can work in several fields, i.e. work in institutions and companies in the public and private sectors:

The Ministry of Oil/its affiliated companies and departments, by applying the -1 acquired knowledge and benefiting from it in economic, administrative and accounting work.

.ent in IraqOil and gas companies and facilities, such as foreign companies pres -2.

OUTCOMES 2: ORAL AND WRITTEN COMMUNICATION .The program enables oral and written communication

OUTCOMES 3: LABORATORY AND FIELD STUDY .The program enables field and laboratory studies

OUTCOMES 4: SCIENTIFIC KNOWLEDGE .t with scientific knowledgeProvides the student

OUTCOMES 5: DATA ANALYSIS .helps the student analyze data

OUTCOMES 6: CRITICAL THINKING .enables the student to think critically

5-ACADEMIC STAFF

The names of the teaching)
(staff are listed below
