.10 My Educational Philosophy

My philosophy of teaching: - My students are future builders and we must provide a stimulating learning environment that enables them to grow physically, mentally, emotionally, and socially. I want to create this atmosphere to enable students to activate their full potential and hone their talents to achieve their goals - A philosophy that promotes critical thinking and active participation for them. Regardless of their level, the goal is to change their behavior positively, provide them with grammatical concepts that benefit them, strengthen their personalities, strengthen their connection to religion, and make them able to take our role in the future. ➤ Accordingly, teaching strategies are adjusted to meet students' individual needs and help them overcome the problems they face in education and in life.
