Advanced Managerial Accounting University of Kerbela – 2020 &2021,2022,2024

5: Supervision of Master's and Ph .D. students

1 - Integrating Target Costing Techniques with Resource Consumption Accounting and
its Impact on Cost Reduction - the student Basim Abdul-Hassan Abood ALkassab -
Karbala University 2019

2 – Activate the role of accounting information systems in evaluating & improving
strategic performance by using the integration of Techniques Balanced Scorecard
& Business Process Reengineering - the student Ali Tahseen Kadhem Alkhafaji-
University of Karbala University 2019

3 - Usage of concurrent engineering and time driven process based costing techniques
as an integrated framework to improve value of product - the student - Zahraa Abdul-
Hamza Ali - Karbala University 2019

4 - The application of Lean accounting tools and their impact on improving product
quality - the student

Huda Gabbar - Karbala University 2020

5 - The possibility Of Application The four-stage timeDriven Activity Based Costing
Technique To Manage The Cost In The Iraqi business environment - the student Ahmed
Hassan Ali Mugid Al-Mamouri- Karbala University 2020

6 - The Integration of the Target Costing and Time-Driven Product Life Cycle Costing
Techniques and their effect on Cost Management - the student QUSAY ABDUL ALAYMA
ASWAD ALMUHANA - Karbala University 2020

7- Evaluate the management of the green supply chain using the balanced score card -
the student Noor Khalil Ibrahim- Karbala University -2021

8- Employing of Time Driven - Performance Based Costing and Continuous
Improvement techniques to Enhance competitive advantage- the student Iman Abdel
Rahim Abdel Karim Al Mayahi -2021

- 9- The Integration of Target costing and Time driven activity based budgeting techniques and its reflection on time and cost management as a competitive priority- the student Ahmed Nasser Abbas Al-Daami-2021
- 10- Integrated between time-driven activity-based costing and manufacturing cycle and its effect on reducing costs- the student Maisam Jawad-2022
- 11- Integration between COBIT framework and the balanced scorecard to evaluate the performance of IT management in business organizations - the student-2022
- 12- Activating the Control Framework for Enterprise Risk Management by Integrating Resource Consumption Accounting & the Balanced Scorecard - the student Taisir Jawad Kadhim Ali Bich -2021
- 13- Integrating between Resource Consumption Accounting & Theory of Constraints to support Corporate Governance - the student Saud Saad Jasim Mensed Al-Qizi-2022
- 14- Product life cycle Budget and its role in achieving dimensions of competitive advantage- the student- ZAHRAA YAHYA ABD ZAID Al- AWWAD-2022
- 15- The Role Of Integration Between Target Costing And Costing Techniques Based On Time-Driven Characteristics In Achieving Competitive- the student Zahraa Ali Jaafar ALZubaidy -2022
- 16- Application of strategic cost management techniques to support effective manufacturing strategy and its impact on achieving sustainable competitive advantage- the student Hussain Ali Hussain -2022
- 17- The Role of The Integration Between Quality Function Deployment and Time-Driven Activity Based Costing Techniques in Cost Management- the student Abdullah Kadhim Noor Al-Rubaie-2022
- 18- Employing green quality function deployment and time-driven comprehensive product life cycle costing to achieve sustainable competitive advantage- the student Ali Mohammed Hassan AL-Kaeshwan-2023
- 19- Integration Between the two techniques Time Driven Activity Based Budgeting and Cleaner Production and its impact on achieving Sustainable Competitive Advantage - the student Salam Adil Abbas Al-Nasrawi-2023
- 20- Cost management by applying resource consumption accounting & continuous improvement techniques to enhance corporate governance- the student Saja Najeh Kareem -2023
- 21- The role of time-driven resource consumption accounting techniques and process re-engineering in product cost rationalization- the student Faezh Emad Hassan Al tae-2023
- 22- Employ time-driven product life cycle budgeting and reverse engineering to support target costing technique to achieve competitive advantage- the student Siham About Hussein -2023
- 23- Adopting a Culture of Green Production in Light of Sustainability Standards to Apply Green Techniques to manage Strategic Costs and Reflect them to Achieve Competitive Advantage- the student Janan Abed Faisal Manshid Al-Rikaby .

6- Discussion : Contributing to the discussion committees of many master's theses and doctoral dissertations.

7- Books published

- a. Advanced Cost Accounting ,Al-Furat House for Education and Information -Iraq- Babylon ,2015
- b. Advanced Managerial Accounting ,Al-Furat House for Education and Information -Iraq- Babylon ,2016
- c. Cost Accounting ,Al-Furat House for Education and Information -Iraq- Babylon ,2014

-8 Research evaluation: contribute to the evaluation of many researches for the purposes of acceptance for publication in scientific journals or for the purposes of scientific promotions, in addition to evaluating a large number of research submitted for publication in Iraqi and international journals.

-9 Rresearches for publication in magazines : publishe many articles and research in local and international journals and within Scopus and Clarivate databases

-10 Scientific conferences: Participation in a number of scientific conferences

-11 Others : Editorial member of many scientific journals and various scientific committees
